MS FI activities																														
Exchange info between EU & MS																														

ceFIMS will produce the following reports:

● **Initial scoping report**, on existing MS FI activities (D3.1)

● **Interim report on research synergies**, on potential MS FI and MS/EU research synergies (D3.2)

● **Report on progress towards research synergies** (D3.3)

Milestones

● MS6 Active knowledge sharing

● MS7 Identification of MS FI and MS / EU research synergies

Database: Stocktaking & Analysis

Information collection:

- Collect primary data on MS FI Research from the FI Forum members and their contacts

- Create templates for documents consolidating this data

- Build database, publish on ceFIMS website

- Expand database with information about FI programmes of other MS & AS

- Identify synergies across FI Programmes across the EU, and linkages between Research Groups

Database: Stocktaking & Analysis

Database development:

- Current content/structure of information in database:
  (based on Member States activities in Future Internet Compendium report)

Current content:	
✓AT	✓LT
✓CZ	✓LU
✓DE	✓NL
✓ES	✓PL
✓FI	✓PT
✓HU	✓SE
✓IE	✓UK

| Current structure: |
|---|
| ✓Title of the initiative |
| ✓Overall Scope |
| ✓R&D Scope |
| ✓Expected Impact |
| ✓Involved Constituency |

- Next step: Gather information from other programmes

Database: Stocktaking & Analysis

Database development (continued):

- Information being uploaded onto ceFIMS website

- Create non-technical, user-friendly search facility:

  - Individual pages for each Member State

  - Includes tag system which cross-references Future Internet topics across each Member State

  - Thus: browse database by topic and by Member State

  - Work-in-progress – *more to come*

Database: *Draft* tag cloud

...based on Future Internet Compendium report

Stocktaking & Analysis: *Next steps*

**Exchange information between EU Framework programme &
National initiatives**

- Analyse administrative & legal barriers to increased co-operation;

- Create communication channels between EU & MS FI research;

- Create high-level activity map between EU & MS FI Research:

  - Help identify synergies

- Monitor progress toward achievement of research synergies.
